SUMMARY

Experienced **Full-Stack Developer** with expertise in **Node.js**, **ReactJS**, and **React Native**. Strong background in real-time communication technologies (**WebSocket**, **MQTT**, **NATS**) and cloud-based services (**Firebase**, **AWS**, **Azure**). Proficient in backend development, API integration, database management, and server deployment. Passionate about building scalable, high-performance applications for web and mobile platforms.

Freelance & Independent Projects

- Developed multiple **React Native**, **ReactJS**, and **Node.js** projects as a freelancer.
- Created and published several high-traffic apps and games on **Google Play & Apple Store**.

Play Store: <https://play.google.com/store/apps/dev?id=5420073857659154987>

Apple Store: <https://apps.apple.com/vn/developer/id1737999404>

WORK EXPERIENCE

10/2019 - 01/2025

Kim Ô Joint Stock Company

Position: Software Developer

Responsibilities

- Developed web and mobile applications using ReactJS, React Native, and Node.js.
- Designed and implemented RESTful APIs, real-time communication via WebSocket, MQTT, and NATS.io.
- Worked with MongoDB, MySQL, SQL Server, and integrated Firebase services.
- Deployed and maintained server infrastructure on VPS, ensuring system stability and performance.

Dự án tiêu biểu

1. VNPT Station Management System

Description: A real-time monitoring system for VNPT telecom stations nationwide.

Role:

- Developed the web interface using ReactJS.
- Built a React Native mobile app.
- Designed backend services connecting MongoDB & NATS-server.
- Published and maintained the app on Google Play & Apple Store.
- Ensured system stability and resolved technical issues.

2. Smart Home System

Description: An IoT application for managing and controlling smart home devices (AC, switches, doors, etc.).

Role:

- Developed backend services with Node.js, MongoDB, and NATS-server.
- Built a React Native mobile app for seamless device interaction.
- Published and maintained the app on Google Play & Apple Store.

3. Fire Alarm System

Description: A fire detection and alarm system with real-time monitoring.

Role:

- Developed backend services with Node.js, MongoDB, and NATS-server.
- Built a React Native mobile app for remote monitoring and control.
- Deployed and maintained the app on Google Play & Apple Store.

4-2018 - 6-2018

VIETCORE

Mobile Developer (Frontend)

- Role: Fontend
- Tech: React native

9/2017 - 1/2018

INNOSOFT

Position: Backend Developer (Laravel)

Worked on multiple web projects:

- Nam Phuong English Project

Role: Frontend Developer

Tech : Laravel, PHP, MySQL

- VCCI Corporate Website

- Role: Backend Developer
- Tech: Laravel, PHP, MySQL

EDUCATION

10/2015 - 10/2019

Can Tho University of Technology

Major: Computer Science

Academic Projects:

- Research: NoSQL Databases & MongoDB
- Web Development: Built a website using Laravel
- Mobile Development: Developed an Android app for library book management
- Thesis: Personal Finance Management Android App
